

IMAT Solutions Named a Sample Vendor in Gartner's Hype Cycle Report for U.S. Healthcare Payers, 2018

IMAT Solutions believes that it extracts, aggregates, normalizes, cleanses, maps and indexes health data

OREM, Utah ([PRWEB](#)) August 09, 2018 -- [IMAT Solutions](#), a leader in delivering innovative, real-time, healthcare data management and population health reporting solutions, announced that it was included in two new Gartner reports: “Best Practices for Healthcare Provider CIOs to Select the Right Patient Data Interoperability Platform” and “[Hype Cycle for U.S. Healthcare Payers, 2018](#).”

The Gartner “Hype Cycle for U.S. Healthcare Payers, 2018” report “provides critical input for strategic planning by tracking the maturity and adoption rates of technology developments. CIOs should use this research to understand technology change and prioritize investments — aiding organization-wide and, in fact, industry-wide transformation.” IMAT Solutions is listed as one of the Sample Vendors.

The “Best Practices for Healthcare Provider CIOs to Select the Right Patient Data Interoperability Platform” report discusses how “Data interchange platforms and networks are relatively new and innovative approaches to sharing health data. They address interoperability and data-sharing use cases for population health, accountable care organizations (ACOs) and HIEs, and clinical data interchange between providers and payers. This new category was created because these vendors currently do not fit neatly into the other data-sharing and interoperability platform categories.”

“We are continually advancing our ability to aid in the delivery, management and efficiency of healthcare,” said Kurt Garbe, CEO of IMAT Solutions. “We are excited about the progress we have made, and particularly appreciate the support of our customers, partners and supporters.”

- Gartner, “Best Practices for Healthcare Provider CIOs to Select the Right Patient Data Interoperability Platform,” Barry Runyon, 3 November 2017.
- Gartner, “Hype Cycle for U.S. Healthcare Payers, 2018,” Bryan Cole, Mandi Bishop, Jeff Cribbs, 18 July 2018.

About IMAT Solutions

IMAT Solutions was formed in 2013 to provide key innovations in data accessibility, analysis, and reporting to healthcare organizations. The product suite is HIPAA-compliant, supporting customers across thirteen states, processing billions of records per year for more than 3,500 facilities, involving 30 million patients and 35,000 providers. IMAT enables clients to improve patient care and care coordination, increase quality of care delivery

at a lower cost. It addresses the challenge of managing, normalizing and querying huge data sets in real-time, enabling users to access structured and unstructured (physician's notes, transcripts) patient information.

IMAT's modules make it a flexible solution that can be tailored to each organization's needs and increase the value of current investments. To learn more about IMAT Solutions, visit: <http://imatsolutions.com>
